

# Invitation

## Interested in Tertiary Education and Training within your region?

Then we need your help to identify the region's gaps, needs, priorities and future trends pertaining to Tertiary Education and Training. Under direction from the Tertiary Education Commission (TEC) we have been appointed as the Regional Facilitator and invite you to attend a series of workshops being held across the region.

The aim of the workshops is to capture thinking about now and the future to inform Government and tertiary education providers on the region's vocational needs, gaps, priorities and future trends.

This process was undertaken in 2007 and through Regional Facilitation and stakeholder consultation a high level Regional Statement was produced. TEC has asked that we update this statement and once again consult with the region.

A copy of the 2007 Regional Statement can be found on [www.waiariki.ac.nz](http://www.waiariki.ac.nz). Follow the link to about us.
